

LANGTONS

STAIR SAFETY POSTS

COMPLIES WITH BS EN 13374 THE STANDARD FOR TEMPORARY EDGE PROTECTION SYSTEMS

- ❖ Steel posts provide secure support for temporary edge protection to staircases and landings during construction
- ❖ Easy to fix and suitable for wood, concrete and steel staircases
- ❖ Manufactured from 40 x 40 RHS powder coated high visibility yellow
- ❖ Base fixings to have a minimum pull out resistance of 1.40 KN (each)
- ❖ Post centres to be a maximum of 2m utilising a 44 x 144 C16 Timber, any joints should be half lapped at the post positions.
